four points for coming first in her class and 10 for the Reserve Champion (Half the total number of animals at show)

The points for **The Bertodano Trophy/Shield** (Best Herd) and **The Jackie Limb Trophy** (Best Junior bull under two years old) are then calculated by adding the total number of points from each exhibitor's best six shows under six different judges. 16.11.2015

In order to work out the points for the Best Junior Bull, Judges should be asked to note on their results sheets any bull under two years of age.

The points for **The Peyton Trophy** (Best Female), **The Mayberry Trophy** (Best Male), **The Wellington Black Pearl Cup** (Best Home Bred bull) and **The Tanner Cup** (Best Home Bred Female) are then calculated by adding the total number of points from each exhibitor's best six shows under six different judges, **at which they were Champion or Reserve Champion** 16.11.2015

THE DEXTER CATTLE SOCIETY

Breed Standard

The Dexter is a dual purpose breed with both beef and dairy qualities. In judging, both these qualities will be taken into consideration.

Colour: Wholly black, wholly red and wholly dun are of equal merit. A little white will not disqualify but must be limited to:

Bulls: a small amount on the organs of generation and in the tassel of the tail. There must be no white forward of the navel or on any other part of the body.

Cows: a small amount on the udder and underline, in the tassel of the tail and on the vulva. There must be no white forward of the navel or on any other part of the body.

Type: Both types of Dexter, i.e. short legged and non-short legged, are of equal merit. However, extremes of either type are discouraged.

Head: Short and broad, tapering gracefully towards a broad muzzle. Jaws wide enough to accommodate well-placed teeth with an even bite. Eyes bright and prominent, with a kind and placid expression.

Neck: Deep and thick, but not too short or too long, blending well into the shoulder. Head should be carried above the spine.

Horns: Moderately thick, with an inward, upward curve. Removal of horns will not be penalised in the show ring. Polled animals are acceptable, but must be notified in writing.

Body: Ample brisket giving plenty of room for the heart and lungs: well sprung ribs: wide across the loin. Quarters thick and deep, broad and full hips, well rounded rump. Straight topline with tail set level with spine.

Bulls: Well hung testicles of even size. Four well defined teats, well placed and evenly spaced.

Cows: Udder should be well attached with high and wide rear attachment and a strong median suspensory ligament. The four teats should be of medium size, well placed on the udder, hanging plumb and of equal length. All four quarters should be of equal size.

Legs: Good width between both front and back legs. Legs should be of moderate length in proportion to body size, squarely placed under the body and perpendicular when viewed from the rear.

Feet: Feet should be short toed, deep heeled and level soled. They should not turn inwards or outwards.

Skin: Loose and pliable. Hair short and sleek in summer, longer and thicker in winter.

Size: **Bulls:** between 42 and 48 inches (106 and 121 cms) at the rump
Cows: between 38 and 44 inches (96 and 111 cms) at the rump

THE DEXTER CATTLE SOCIETY

Etiquette of Showing - Exhibitors

- a. All exhibitors must study the show schedule to check that the animals are entered in the correct classes and comply with all the rules and regulations of the particular show.
- b. Clean white stock coat and clean appropriate footwear is necessary. A tie (preferably Dexter Cattle Society) should be worn.
- c. Exhibitors are official representatives of the Society, and are required to conduct themselves appropriately. It is not acceptable to smoke or chew whilst in the ring. Ensure that your mobile phone is turned off.
- d. It is in the exhibitor's best interest to ensure that their animals are prepared to show standard. Dexters in milk are shown with full udders, but should not be overstocked as it may become a welfare issue.
- e. At all times keep the cattle lines tidy. Ensure that cattle are not left unattended and have access to clean bedding, feed and water. Cattle cleanliness and welfare must be paramount at all times. Remember you are responsible for your own animals.
- f. A clean well fitted halter is necessary for each animal.
- g. Be aware of the judge at all times, and when the judge is evaluating your animal please answer clearly any questions the judge may have.
- h. Stand clear from the animal during evaluation without losing control, so that the animal can be judged.
- i. Be aware that in the final line-up before presenting the rosettes, the judge may alter the placings.

New Exhibitors

j. Please give assistance to all new exhibitors. Showing has its serious side but it must also be fun. Try to communicate this, and accept both winning and losing in a gracious sportsmanlike manner.

Here are a few tips for the new exhibitor:

Apply for and study the show schedule and entry form well in advance.

Get every animal used to being haltered and led around.

Leave yourself sufficient time to load your vehicle, travel to the show, set up at the Show and prepare your animals prior to judging commencing.

Remember to take all necessary paperwork or update relevant paperwork.

Information for Show Societies & Stewards

Pedigree registered Dexter Cattle are judged against the Dexter Cattle Society Breed Standard as shown on page 3 of this booklet

When showing a pedigree animal in any pedigree Dexter class an exhibitor must be a member of the Dexter Cattle Society and have officially owned the animal for 3 months prior to entry for the show. Membership and cattle ownership are shown in the Dexter Cattle Society herdbook or the current online database www.dextercattle.co.uk

Pedigree registered Dexter Cattle are judged against the Dexter Cattle Society Breed Standard as shown on page three of this booklet.

The Dexter Cattle Society operates a 'Show Appointments Committee' clearing house system for Dexter Cattle Society judges to ensure impartiality and fairness.

The Dexter Cattle Society forwards a Dexter Cattle Society Champion Rosette, a Champion Spoon and a best young handler rosette for each show, being judged by a Dexter Judge, to the individual show judge prior to the judge's attendance at the show. The National Dexter Show does not have a best young handler rosette as there are three special handler competitions for differing age groups.

It is the show society's responsibility to check the eligibility of the animals entered in the various Dexter classes according to its own rules and regulations. In the event of an anomaly the steward or other official should refer the matter to the exhibitor in good time to remedy the clerical or other error.

If the show society feels that an exhibitor has deliberately set out to deceive, the matter should be referred to the Dexter Cattle Society within 21 days of the show.
